

GAM Standard Catalog Assembly Nomenclature

Example Part Number	Part Number Breakdown								
A02SR02SR30K51A Double-Ended Assembly	A	02	SR	02	SR	30	K	51	A
	A = Standard Assembly	Number of Positions	Series Name	Number of Positions	Series Name	AWG	Wire Color: K = Black R = Red W = White E = Blue H = Gray	Length in MM: 51 = 2" 102 = 4" 152 = 6" 203 = 8" 254 = 10" 305 = 12"	Pin-Out: A = 1 to 1 B = 1 to N
AGHGH28K51 Double-Ended Pre-Crimped Lead	A		GH		GH	28	K	51	
	A = Standard Assembly		Series Name or Contact Prefix		Series Name or Contact Prefix	AWG	Wire Color: K = Black R = Red W = White E = Blue H = Gray	Length in MM: 51 = 2" 102 = 4" 152 = 6" 203 = 8" 254 = 10" 305 = 12"	

Note: These are the most common standard assembly part number nomenclatures. The standard assembly part number may vary by series and configuration.
